WELSPUN TUBULAR LLC

February 17, 2015

President Barack Obama
The White House
1600 Pennsylvania Ave, NW
Washington, DC 20500

Dear Mr. President,

We, the employees of Welspun Tubular in Little Rock, Arkansas, produced over 800 miles of pipe that will be used in the Keystone XL Pipeline. Currently there is over 350 miles of Keystone XL pipe sitting on Welspun property waiting to be used.

We support the construction of the Keystone XL Pipeline and we urge your support of it, too.

Production of the pipe to be used in the Keystone XL Pipeline has kept Welspun employees working for over 2 years providing good paying jobs that have helped us support our families and our community.

We know that the pipe to be used in the Keystone XL pipeline is of the highest quality and will be the safest pipeline ever built.

We urge your support of the construction of this project.

Thank you for your consideration.

Sincerely,

9301 Frazier Pike, Little Rock, Arkansas 72206, Tel: +1-501-301-8800 Fax: +1-501-490-0662
